Building an Open Standard for Research

BlueMatrix joins RIXML.org as an Associate Member

New York, January 9th, 2008

RIXML.org, a consortium of buy-side, sell-side and vendor firms committed to the development and implementation of the first open standard for investment research, is pleased to announce that **BlueMatrix**, which builds and provides comprehensive global research platforms for both sell-side and buy-side users, has joined the organization as an associate member.

“RIXML.org welcomes BlueMatrix as an associate member,” said Jack Roehrig, Executive Director, RIXML.org. “They bring a great deal of expertise to our organization and have established themselves as a significant player in the RIXML tagging and delivery space.”

“We are very pleased to join the RIXML effort,” said Skye Hauptman, CEO and Co-Founder of BlueMatrix. “We have been implementing RIXML compliant solutions for a number of years, but wanted to join a community to help extend and promote the standard.”

As an Associate Member, BlueMatrix will add much value through direct participation in RIXML Technology working groups, with their fellow associate and steering members, to help develop future releases of the schema.

About RIXML.org

RIXML.org is a consortium of buy-side, sell-side and vendor firms that was formed to define an open standard to improve the process of categorizing, aggregating, comparing, sorting and distributing global investment and financial research. For more information about the RIXML specification and RIXML.org, please visit the website at www.rixml.org.
